TERMINAL DISCLAIMER

The owner of the entire interest in the instant application, the University of Washington, hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term defined in 35 USC §§ 154 to 156 and 173, of Patent No. 6,264,994 ("the prior patent"). The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding on the grantee, its successors or assigns.

In making the above disclaimer, the owner expressly does not otherwise or further disclaim any part of the term of any patent granted on the instant application; such as, by way of illustration, and not by way of limitation, in the event that the prior patent: (1) expires subsequently for failure to pay a maintenance fee; (2) is held unenforceable; (3) is found invalid by a court of competent jurisdiction; (4) is statutorily disclaimed, or terminally disclaimed under 37 CFR § 1.321; (5) has all its claims cancelled by a reexamination certificate; (6) is reissued; (7) or is in any other manner terminated prior to the expiration of its full statutory term.

The fee required under 37 CFR § 1.20(d) is submitted herewith. The undersigned is attorney of record in this case.
